DESCRIPTION

This 2014 defender 110 XS Station Wagon is finished in Santorini Black with Black partial-leather interior. It has covered under twelve thousand miles from new. Standard equipment includes air conditioning, heated seats and a heated windscreen. The car has been upgraded with the Land Rover Classic infotainment system and also the Land Rover Classic Upgrade kit. This consists of uprated springs, dampers and anti-roll bars, improving the on-road performance of the car without compromising it's off-road useability. The kit also includes an improved braking system with larger discs and calipers – the same system as was developed for the 400bhp Works V8 Defenders. The car also has a set of black 18" Bowler Lightweight wheels. The car has been prepared for sale in our own workshops here at Jaguar Land Rover Classic, and will be supplied to its new owner with 12 months warranty and 12 months breakdown cover.
