## DESCRIPTION

F TYPE Project 7 was the first Jaguar performance vehicle from Jaguar Land Rover's Special Operations team, and was produced in an exclusive, limited edition run 250 units. Its distinctive roadster body pays tribute to one of the most famous and iconic racing Jaguars: the three time Le Mans winning D type. F TYPE Project 7's name pays homage to Jaguar's seven outright Le Mans wins. F TYPE Project 7's power comes from Jaguar's 5.0 litre supercharged V8 engine, now in 575PS/680Nm form, enabling the all aluminium bodied car which weighs 1585kg to achieve acceleration from 0 60mph in 3.8 seconds (0 100km/h in 3.9 seconds) and an electronically limited top speed of 186mph (300km/h). F TYPE Project 7 is fully road legal, with a removable roof and 196 litre stowage space. Key design elements include the D type inspired fairing behind the driver's head, shorter windshield, new front bumper, and downforce increasing aerodynamic modifications including a carbon fibre front splitter, side skirts, rear diffuser and adjustable rear spoiler. However, the single seater concept has been transformed into a two seater, with rollover hoops for both driver and passenger now integrated into the design. This particular car is finished in British Racing Green Metallic with a Jet black leather interior, featuring green stitching and carbon trim to the dashboard along with illuminated door sill trims. It has covered just under 6,500 miles, and has always been serviced by Jaguar main agents from new. In the history file is the Certificate of Authenticity along with the Project 7 specific handbook in its metal presentation box. The car is supplied with the full roof system in its bespoke leather storage cases and the two colour-coordinated Project 7 helmets. The car has been prepared by Jaguar Classic's own workshop and will be serviced and MOT'd for its new owner. We will also provide 12 months warranty

and 12 months breakdown cover for the new owner.
